Mission & Vision

Mission

Connecting Buyers & Suppliers Globally

Vision

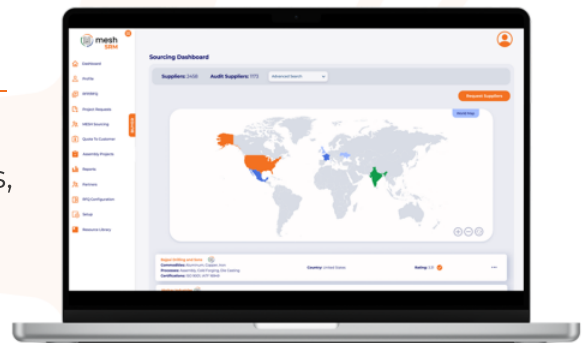

To transform how buyers & manufacturers discover, engage, and collaborate within the supply chain

With over **\$1B** quoted between buyers & suppliers across **3,000+** manufacturing organizations in **2023**

Products & Solutions

• MESH Sourcing

Database of **3,000+** manufacturers with detailed information on capabilities, processes, equipment, machines, certifications, and 45-question in-person audit details with factory photos & videos

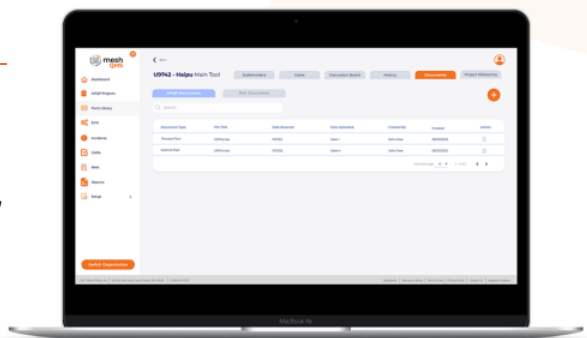

• MESH SRM

Supplier Relationship Management focused on managing **RFQs & sourcing** activities across a global supplier base with pre-built templates for different finished components, raw materials & industry standard quoting templates for suppliers.

• MESH QMS

Quality Management System focused on **APQP** project management with digital APQP forms, CAPA, mobile incident reporting, stakeholder communication/approvals, timeline & task management in one system with visibility for all stakeholders.

Corporate Social Responsibility & Community Engagement

MESH Works is committed to making a positive impact in the community. We actively support community philanthropy, promote diversity and inclusion within our workforce, and uphold ethical standards in all facets of our operations.

Customer Testimonials & Success Stories

Our customers include industry leaders across manufacturing who rely on MESH Works to drive innovation and achieve measurable results. From optimizing supply chains and strengthening sourcing strategies to providing APQP tools, we partner with our clients to navigate complex challenges.

“By leveraging MESH in the sourcing processes, TriVista ensures the best possible results for its clients. MESH complements TriVista's systematic approach to sourcing, further enhancing client satisfaction. The supplier database has audited suppliers of commonly sourced categories (machined, die-cast, stamped, sheet metal, etc..”

Zach D. Supply Chain Manager TriVista

“Creating an RFQ in MESH is so simple and intuitive it can be done in just a few minutes. Having access to easily view quote revisions makes our team more efficient.”

**Randy Rhodes, VP of Sourcing,
Transportation, and Quality Engineering
MES Inc**

Zhejiang Baisida in China secured a project worth \$100K annually for CDA 81100 copper with tin plating and is in negotiations on a \$3 million project.

Shinco Technologies in Vietnam was awarded an annual \$282K project for high-pressure die casting of ADC 12 aluminum.
